

List of Forthcoming Papers

RICHARD BELLMAN. Functional Equations in the Theory of Dynamic Programming—
XIV: Upper and Lower Bounds for Solutions of Nonlinear Partial Differential
Equations.

A. M. FINK. Extensions of Almost Automorphic Sequences.

JOHN R. ISBELL. Three Remarks on Injective Envelopes of Banach Spaces.

ROY Y. LEE. On Uniform Simplification of Linear Differential Equation in a Full
Neighborhood of a Turning Point.

GILBERT WALTER. Singular Points and Hermite Series.

S. ZAIDMAN. A Certain Partition of the Unity.
